- > Quick and easy to apply

My decorative wallpaper

Create in-store, beautiful strips of customised wallpaper in just a few clicks.

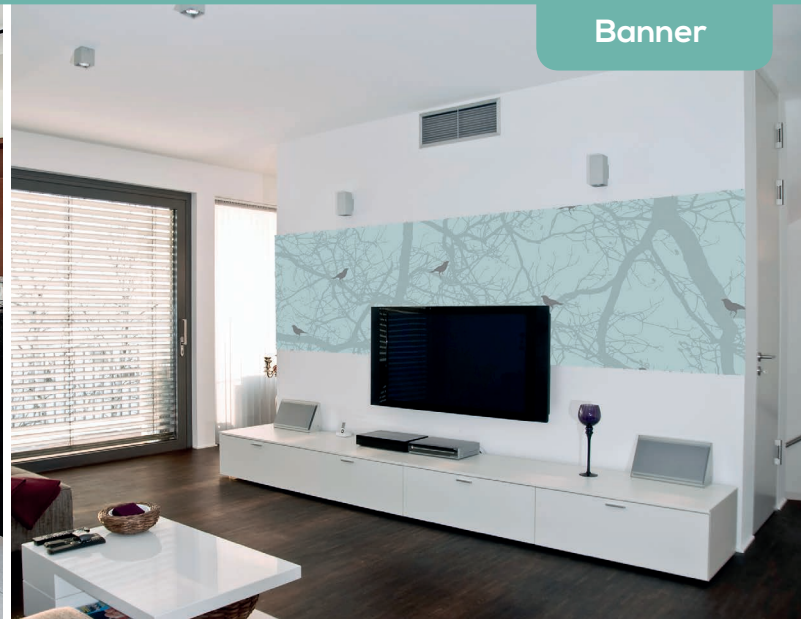

Your customers can create a 100% personalised strip of wallpaper instantly.

1. Choose one or several images from a media storage (USB key, memory stick...) or from our image library
2. Define the wallpaper or the canvas size: height and number of strips
3. Design your wallpaper or your canvas
4. Print in store in a few minutes
5. Apply it without any constraints: no wall preparation, no glue

DESIGN IT YOURSELF

Several options to fully customise your decoration.

● **4 product choices** : 1 strip of wallpaper, 1 banner, 1 photo wall, 1 canvas.

● **Additional features** :

- > Possibility to insert one or several pictures
- > Photo enhance options (black & white, sepia, zoom, cropping)
- > Collage function

CHOOSE FROM 3 PAPER FINISHES

1) The wallpaper is pre-pasted, simply wet and apply to the wall. Your customers do not need to be equipped with glue, a brush or wallpaper pasting table.

2) Self-adhesive vinyl sticker: ideal for one strip of wallpaper. You just have to peel off the backing and apply it to the wall.

3) Canvas

NO MARKS NO STAINS

No marks or stains on the wall when your customers remove the wallpaper strip, as the strip will not tear off the paint. The wall stays intact.

HIGH QUALITY PRODUCT

- 200g pre-pasted paper
- 6 colour pigmented inks
- 300 dpi printing

INSTANT

In less than 10 minutes, your customers leave with their personalised wallpaper!

Advice

Picture selection :

- 5 mega-pixels is the minimum size required to create a high quality, unique strip of wallpaper.
- Below 5 mega-pixels, it is preferable to create a collage with several pictures.

Size selection :

- When you have to choose the height, add 5 mm to 1 cm to the height to give a margin of error.

Technical specifications

Configuration :

- Intel Core i3 3220 - 3.3GHz
- 8Gb RAM memory
- Hard disk 500 GB
- Touch Screen 21.5"
